Department Of Microbiology

**Blood Group and Hemoglobin Checking Report 2022-23**

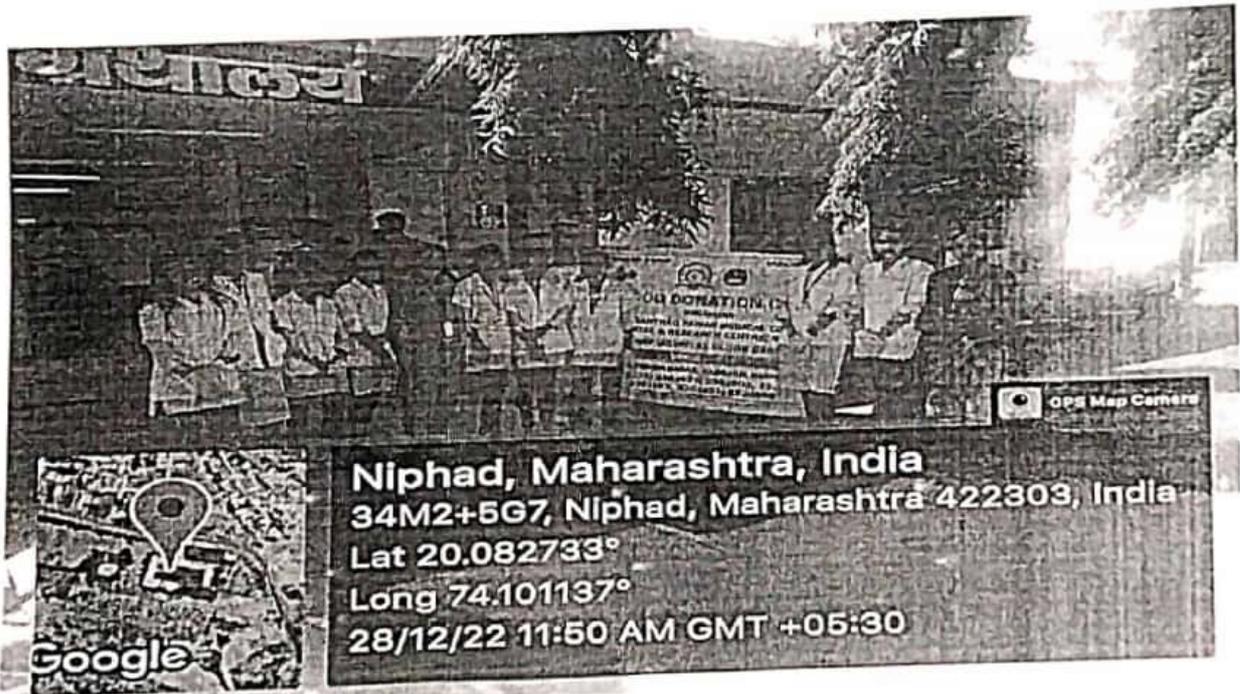

Department of Microbiology has Organized one day blood group and hemoglobin checking camp at K.G.D.M. Art's, Commerce And Science College, Niphad on 28<sup>th</sup> December 2022. This programmed was conducted in coordination with Dr. Vasantao Pawar Medical College, Hospital and Research Centre , Adgaon, Nashik . Blood typing is a test that determines a person's blood group . The test is essential in case of blood transfusion and blood donation. Hemoglobin checking is important to determine anemic conditions.

In this camp all T.Y.B.Sc Microbiology students were actively participated . Total 69 number of students blood group and hemoglobin were checked by T.Y. B.Sc students by using slide method for Blood Group and copper sulphate method for hemoglobin determination in which antisera A, antisera B and antisera D was used to see agglutination in blood grouping and specific gravity solution of copper sulphate was used to determine anemic condition. Blood grouping were done with guidance of Prof. Mohod R. S. and Prof. Kadlag A. U.
